ADVANCES IN ATMOSPHERIC SCIENCES

Vol.12 No.1 1995

CONTENTS

CISK—rossby wave and the 30–60 Day Oscillation in the Tropics
..... *Liao Qinghai* (廖清海) and *Li Chongyin* (李崇银) (1)

Application of a Shape–Preserving Advection Scheme to the Moisture Equation in an E–grid Regional Forecast Model ..... *Yu Rucong* (宇如聪) (13)

Interannual Fluctuations of Surface Air Temperature over North Ameriea and Its Relationship to the North Pacific SST Anomaly ..... *Wu Renguang* (吴仁广) and *Chen Lieting* (陈烈庭) (20)

Mesoscale Vegetation–Breeze Circulations and Their Impact on Boundary Layer Structures at Night
..... *Ye Zhuojia* (叶卓佳) and *Jia Xinyuan* (贾新媛) (29)

A Statistical Model for Investigating Climatic Trend Turning Points
..... *Ding Yuguo* (丁裕国), *Tu Qipu* (屠其璞) and *Wen Min* (温 敏) (47)

Numerical Experiments of Meiyu (Baiu) Rainfall by Quasi–Lagrangian Limited Area Model with Terrain
..... *Zhao Li* (赵 力) and *Zhao Sixiong* (赵思雄) (57)

A Global Spectral Model and Test of Its Performance
..... *Zhang Daomin* (张道民), *Li Jinlong* (李金龙), and *Ji Liren* (纪立人) (67)

On the Development of Meso–Scale Heavy Rain Parcels in China
..... *Zhang Yan* (章 淹) (79)

QBO Features of Tropical Pacific wind Stress Field with the Relation to El Nino
..... *Zhang Qin* (张 勤) and *Zhu Yufeng* (朱育峰) *Ni Yunqi* (倪允琪) (87)

The Variability of the Interannual Oscillations of the Indian Summer Monsoon Rainfall
..... *R. Vijayakumar* and *J. R. Kulkarni* (95)

Efficiency of Severe Recorded Rainstorms over Maharashtra State
..... *B. D. Kulkarni, Miss Shobha Nandargi* and *O. N. Dhar* (103)

Some Splitting Methods for Equations of Geophysical Fluid Dynamics
..... *Ji Zhongzhen* (季仲贞) and *Wang Bin* (王 斌) (109)

Nitrous Oxide Evolution from Agricultural Soil: A Regression Approach
..... *Wang Shaobin* (王少彬) *Song Wenzhi* (宋文质) and *Su Weihan* (苏维瀚) et al., (114)

Experiments of Reconstructing Discrete Atmospheric Dynamic Models from Data (I)
..... *Lin Zhenshan* (林振山) *Zhu Yanyu* (朱焰宇) and *Deng Ziwang* (邓自旺) et al., (121)

No.2

A Coupled General Circulation Model for the Tropical Pacific Ocean and Global Atmosphere
..... *Zhang Ronghua* (张荣华), *Zeng Qingcun* (曾庆存) and *Zhou Guangqing* (周广庆) et al. (127)

Relationships between Regional Indian Summer Monsoon Rainfall and Eurasian Snow Cover
..... *B. Parthasarathy* and *Song Yang* (143)

The Early Summer Seasonal Change of Large-scale Circulation over East Asia and Its Relation to Change of The Frontal Features and Frontal Rainfall Environment During 1991 Summer .....
..... *Gong-Wang Si, Kuranoshin Kato* and *Takao Takeda* (151)

Two-wavelength Lidar Measurement of Cloud-aerosol Optical Properties
..... *Qiu Jinhuan* (邱金桓) (177)

The Effect of Weak Shear-induced Motion on Brownian Coagulation of Aerosol Particles
..... *Wen Jingsong* (*C.S. Wen*) (温景嵩) and *Wang Yongguang* (王永光) (187)

Characteristics of the Mean Water Vapor Transport over Monsoon Asia
..... *Yi Lan* (伊 兰) (195)

Effect of the Interaction of Different Scale Vortices on the Structure and Motion of Typhoons
..... *Chen Lianshou* (陈联寿) and *Luo Zhexian* (罗哲贤) (207)

Analysis of Cauese and Seasonal Prediction of the Severe Floods in Yangtze / Huaihe Basins during Summer 1991
..... *Xu Qun* (徐 群) (215)

Monthly Mean Temperature Prediction Based on a Multi-level Mapping Modelof Neural Network BP Type
..... *Yan Shaojin* (严绍瑾), *Peng Yongqing* (彭永清) and *Guo Guang* (郭 光) (225)

Multivariate Objective Analysis of Wind and Height Fields in the Tropics
..... *S.K. Sinha, S. G. Narkhedkar* and *S. Rajamani* (233)

QBO-like Oscillations Induced by Local Thermal Forcing
..... *Zhang Daizhou* (张代洲) and *Qin Yu* (秦 瑜) (245)

The Capability of Atmospheric Profile Retrieval from Satellite High Resolution Infrared Sounder Radiances
..... *Li Jun* (李 俊) (255)

No.3

The Dynamical Effects of Divergent Wind on the Intraseasonal Variability of the East Asian Circulation
..... *Song Yucheng* (宋玉成) and *Huang Ronghui* (黄荣辉) (259)

The Interannual Variability of Climate in a Coupled Ocean–Atmosphere Model
..... *Yu Yongqiang* (余永强) and *Guo Yufu* (郭裕福) (273)

Design and Numerical Simulation of an Arctic Ocean Circulation and Thermodynamic Sea–Ice Model
..... *Yu Rucong* (宇如聪), *Jin Xiangze* (金向泽) and *Zhang Xuehong* (张学洪) (289)

Evolution of Asian Summer Monsoon and the Slowly Varying Disturbances
..... *Lu Peisheng* (卢佩生) (311)

A Noninear Time–lag Differential Equation Model for Predicting Monthly Precipitation
..... *Peng Yongqing* (彭永清), *Yan Shaojin* (严绍瑾) and *Wang Tongmei* (王同美) (319)

A Study on Frontal Motion over Orography ... *Xiao Qingnong* (肖庆农) and *Wu Rongsheng* (伍荣生) (325)

Neuroid BP–type Model Applied to the Study of Monthly Rainfall Forecasting
..... *Yan Shaojin* (严绍瑾), *Peng Yongqing* (彭永清) and *Guo Guang* (郭 光) (335)

Tests for Individual Sulfate–Containing Particles in Urban Atmosphere in Beijing
..... *Zhang Daizhou* (张代洲), *Tang Xiaoyan* (唐孝炎) and *Qin Yu* (秦 瑜) et al. (343)

Effects on Asian Monsoon of Gigantic Qinghai–Xizang Plateau and Western Pacific Warm Pool
..... *Zhu Qianggen* (朱乾根) and *Hu Jianglin* (胡江林) (351)

Numerical Study of Ural Blocking High's Effect upon Asian Summer Monsoon Circulation and East China
..... Flood and Drought *He Jinhai* (何金海), *Zhou Xueming* (周学明) and *Ye Rongsheng* (叶荣生) (361)

Short–term Climatic Fluctuations in North Atlantic Oscillation and Frequency of Cyclonic Disturbances over North Indian Ocean and Northwest Pacific ..... *S. S. Dugam* and *S. B. Kakade* (371)

Some Unique Characteristics of Atmospheric Interannual Variability in Rainfall Time Series over India and the United Kingdom ..... *A. Mary Selvam, J. S. Pethkar* and *M. K. Kulkarni* (377)

22 316Hi XL 020
6/97 31249-200 NULE

No.4

Three–dimensional Global Scale Permanent–wave Solutions of the Nonlinear Quasigeostrophic Potential Vorticity Equation and Energy Dispersion ..... *H.L. Kuo* (387)

The Dynamical Influence of Land–Sea Contrast and Sea Surface Temperature on Intraseasonal Oscillation in Tropical Atmosphere ..... *Yang Yan* (杨 燕) and *Zhu Baozhen* (朱抱真) (405)

On the Generalized Theory of Atmospheric Particle Systems ..... *Liu Yangang* (419)

Propagation of Envelope Solitons in Baroclinic Atmosphere ..... *Tan Benkui* (谭本馗) and *Yin Dongping* (尹东屏) (439)

A Parameterization of Bowen Ratio with Respect to Soil Moisture Availability ..... *Ye Zhuojia* and *Roger A. Pielke* (449)

A Study in Search of Interconnection between Surface Parameters and Surrounding Synoptic and Subsynoptic Features ..... *R. Pradhan, U. K. De* and *P.K. Sen* (475)

Some Aspects of the Characteristics of Monsoon Disturbances Using a Combined Barotropic–Baroclinic Model ..... *N. R. Parija* and *S. K. Dash* (487)

Condensation Induced by Rarefaction Waves and Reflected Rarefaction Waves ..... *Fu Yunfei* (傅云飞), *Han Zhaoyuan* (韩肇元) and *Gong Minwei* (龚闽卫) (507)
